

WATER GARDEN CITY

HOTEL PLOT NO. 99

WATER GARDEN CITY

LOCATION

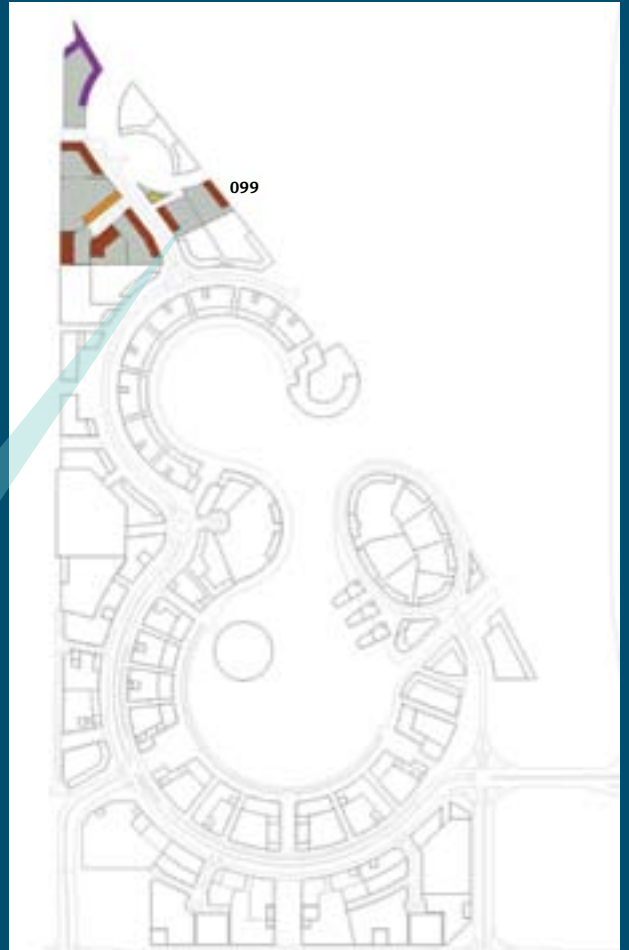

At the heart of the Gulf's fastest growing financial centre, at the geographic centre of the Gulf itself, Albilad is proud to introduce Water Garden City. A city of architectural bravura and sweeping open spaces, where the fortunate few will form a new community, in a location that blends the best of city and seafront living – all just a stone's throw from Manama.

Bringing together the vital elements of water, garden and city, this breathtaking development will set a new benchmark for 'reclamation' in the Gulf. Water Garden City will enhance both the Kingdom's rapidly expanding economy and its cultural growth as it continues to attract the world's best and brightest to its shores.
